

# Login Screen

When you login for the first time the default user ID will be **OWNER** and the password will be **START**.

Once you log in a window will pop up prompting you to change your password.

Enter **START** as the old password and enter a new password twice.

*\*Make sure your password is something that you can remember*

Password in **start**  
See Help File in Optimum Control about adding new employees and passwords

Enter **start** as the old password  
Enter your new password twice
