

# OC Mobile

www.tracrite.net  
sales@tracrite.net  
1-888-798-5555

OCMobile for PocketPC enables you to count inventory, create orders and specify requisitions using a mobile device. Avoid dual entry by uploading completed counts and orders with the click of a button.

## *Speeds Counting Times*

- Send count sheets and order guides from Optimum Control to your PDA
- Avoid printing work sheets, saving paper and trees!
- Organize count sheets to match storage areas to increase speed.

## *Avoid Mistakes*

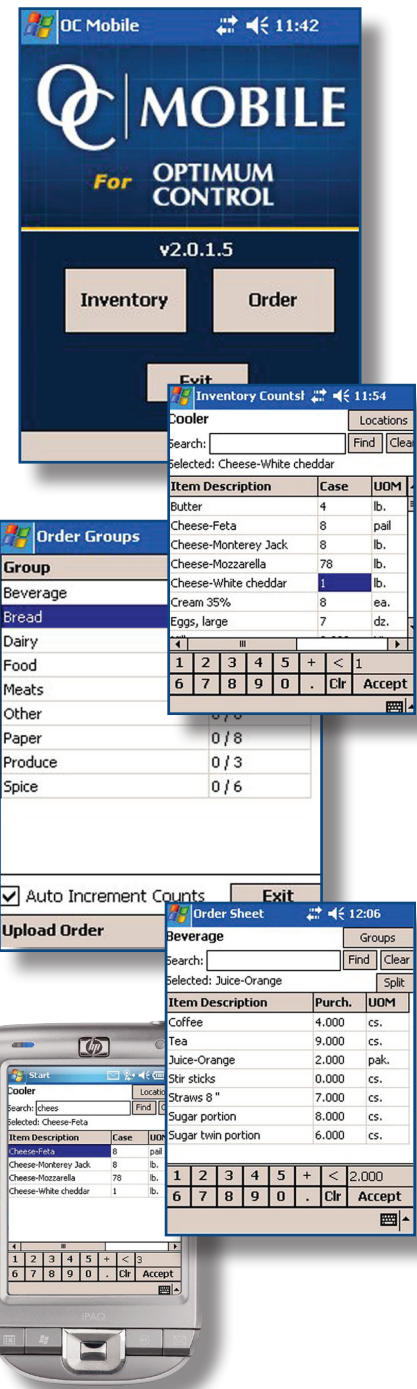

- No more deciphering count sheets with messy writing
- No more errors transposing counted amounts from sheets to computer
- Simple one step import/export to Optimum Control

## *Barcode Scanning*

- Enable barcode scanning for even faster counting
- For those items with no barcodes, Optimum Control can create and print a label for easy scanning
- Assign barcodes to items as you count.
- Auto increment feature counts by number of times scanned

## *Stock requisitions (OCPremier only)*

- Load requisition list from specific area
- Create transfers digitally and upload for easy approval and fulfillment.
